BIG BLACK BEAR

WHITEPAPER

INTRODUCTION

The White paper aims to educate readers on the BigBlackBear visions. The strategy and roadmap in an easy to understand way. Below we illustrate in detail our dividend project .

We are excited to be part of the doge queen ecosystem in a showcase that will benefit our holders and the community as a family of BigBlackBear .

We will share our vision with you through this as the first ecosystem.

ABSTRACT

What is BigBlackBear?

BigBlackBear is making his debut to the market! BigBlackBear aimed to bring everyone to the moon! BigBlackBear is a native token that allows everyone to control their money and have the opportunities to achieve financial freedom in BlockChain.

BigBlackBear with a big plan!

BigBlackBear had an amazing debut. In just one day, it had 4,500 addresses and 2.7 million USDT transactions. Get more exposure on news channels everywhere and on TikTok. The project will make our goal surpass the DogeKing. Come on! Bear!!!
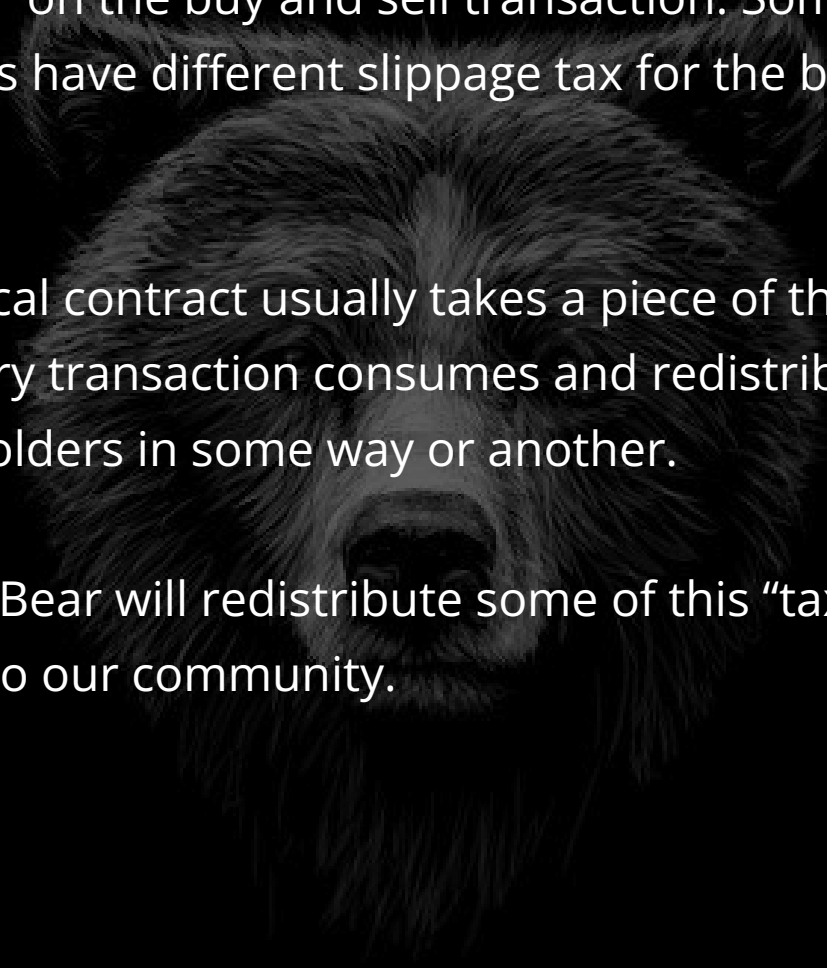

Until today, big holders from the DogeKing, htmoon and Ethereum have joined BigBlackBear! Daily video call is carried out for market analysis and management! Big Influencer — Taylor Musk has shared the project on Twitter! Trending on multiple platforms is happening soon! If you missed the DogeKing do not miss the BigBlackBear!

<u>What is slippage?</u>

Slippage is the total amount percentage wise you pay as a "tax" on the buy and sell transaction. Some contracts have different slippage tax for the buy and sell.

The typical contract usually takes a piece of that "tax" that every transaction consumes and redistributes it to the holders in some way or another.

BigBlackBear will redistribute some of this "tax" as a reward to our community.

BigBlackBear Community Chain

Token holders, amounts, transactions and more can be seen on the blockchain.This is tracked on explorer . BigBlackBear is a native BEP-20 token and is powered by the ecosystem. The BigBlackBear token dividend is based on a system that is equally proportionally split to the token holders.

This system is fully automated and doesn't add minimal gas fees proportional to value transferred. The number of holders processed through each transaction is dynamic and based on transaction size. Holders will receive dividends from the BigBlackBear based on their position in the array. It's a fair system, fully automated. Minimum token balance is 500,000 BigBlackBear tokens to receive.
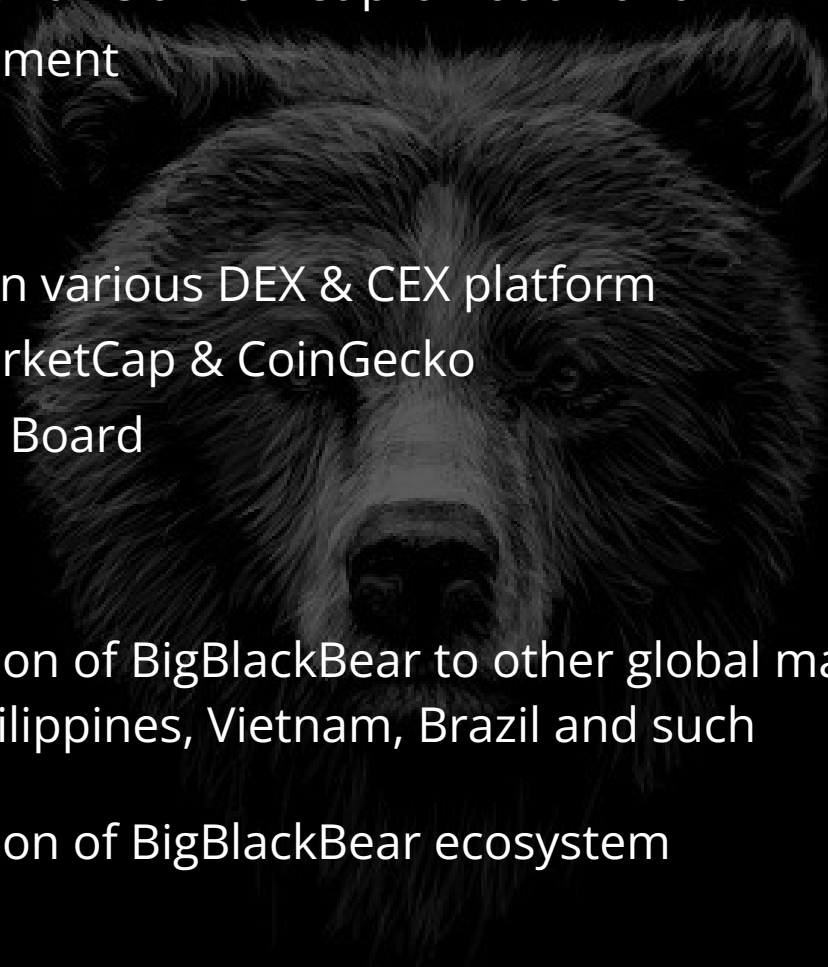

ROADMAP 2022

2022 Q1

- Idea Establishment. Team creation

- Pancake swap

- Global and Asia market promotion and establishment

2022 Q2

- Listing in various DEX & CEX platform

- CoinmarketCap & CoinGecko

- Advisor Board

2022 Q3

- Expansion of BigBlackBear to other global markets - India, Philippines, Vietnam, Brazil and such

- Expansion of BigBlackBear ecosystem

TOKENOMICS:

- Contract Address:
  0xa519441b873f9918c6557d9d46182ad78bf408ee
- Total: 1,000,000,000,000
- Liquidity pool: 2%
- Dividend: 1%
- Marketing: 5%
- 90% put into black hole and burn (Txn Hash):
  0x14180f04d1be3d43d398901d0c99d9869160b00ce0a5eea47b59e756e5d82c1c
- Listing: PancakeSwap

HOW TO BUY BigBlackBear?

1. Go to PancakeSwap
2. Go to Exchange > Swap
3. Connect your wallet
4. Search for BIG BLACK BEAR
5. Swap in BSC for BIG BLACK BEAR
6. Click Swap and you are done

BigBlackBear
Security Audit And Community Safety:

Liquidity locked (Locked LP tokens): What this means is that tokens and KCS value that are pushed into the liquidity pool are completely locked. This is an anti-rug pull measure. This keeps both the community safe and happy. A trusted 3rd party will hold the lock contract and act as a middle man for the locked liquidity. Team tokens locked: This means that the tokens that the founding team owns will be locked up for a period of time. Nonetheless, they will release slowly or vested over the period of 12 months. A trusted 3rd party will hold the lock contract and act as a middle man for the locked team tokens.

Finally, make sure to verify you are in the correct group as many scammers create scam token groups that make the real thing.
